The Bravilor Bonamat grinder ensures a stable yield per grind

Whatever your clientele

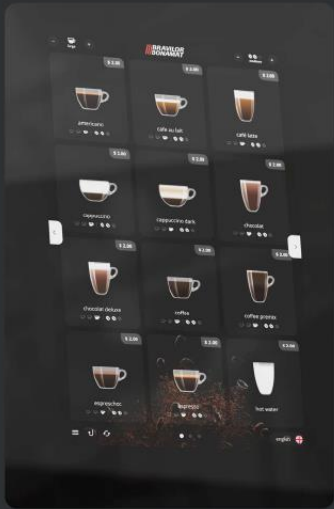

Customers expect a convenient and above all, an outstanding coffee experience. You can rely on the all new Esprecious to serve even the most demanding customer a perfect coffee specialty. To either start their day, savor a special moment or close that high potential deal at work.

ESPRECIOUS

Features & Benefits

12" Touchscreen

The large touchscreen offers an extended selection of beverages. And with its intuitive, user-friendly interface, (self) serving has never been quicker and easier.

Personalization

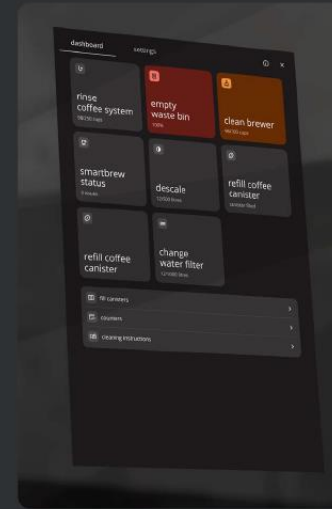

Express your brand and make your machine truly yours. Implement your branding, whether it is a branded wallpaper, your brand colors or your company logo. The Espresso will fit right in your office.

Infotainment

Interact with your customers or staff by displaying advertisements or corporate videos while idle or dispensing.

Daily maintenance

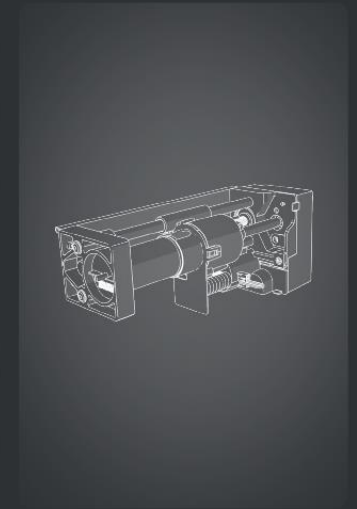

Anticipate on mandatory maintenance, as the Espresso gives you feedback ahead of time, on time, without disturbing or interrupting the coffee consumer. All in order to keep your Espresso running smoothly, delivering an excellent coffee experience and maintaining the coffee quality you deserve.

Bravilor Bonamat Grinder

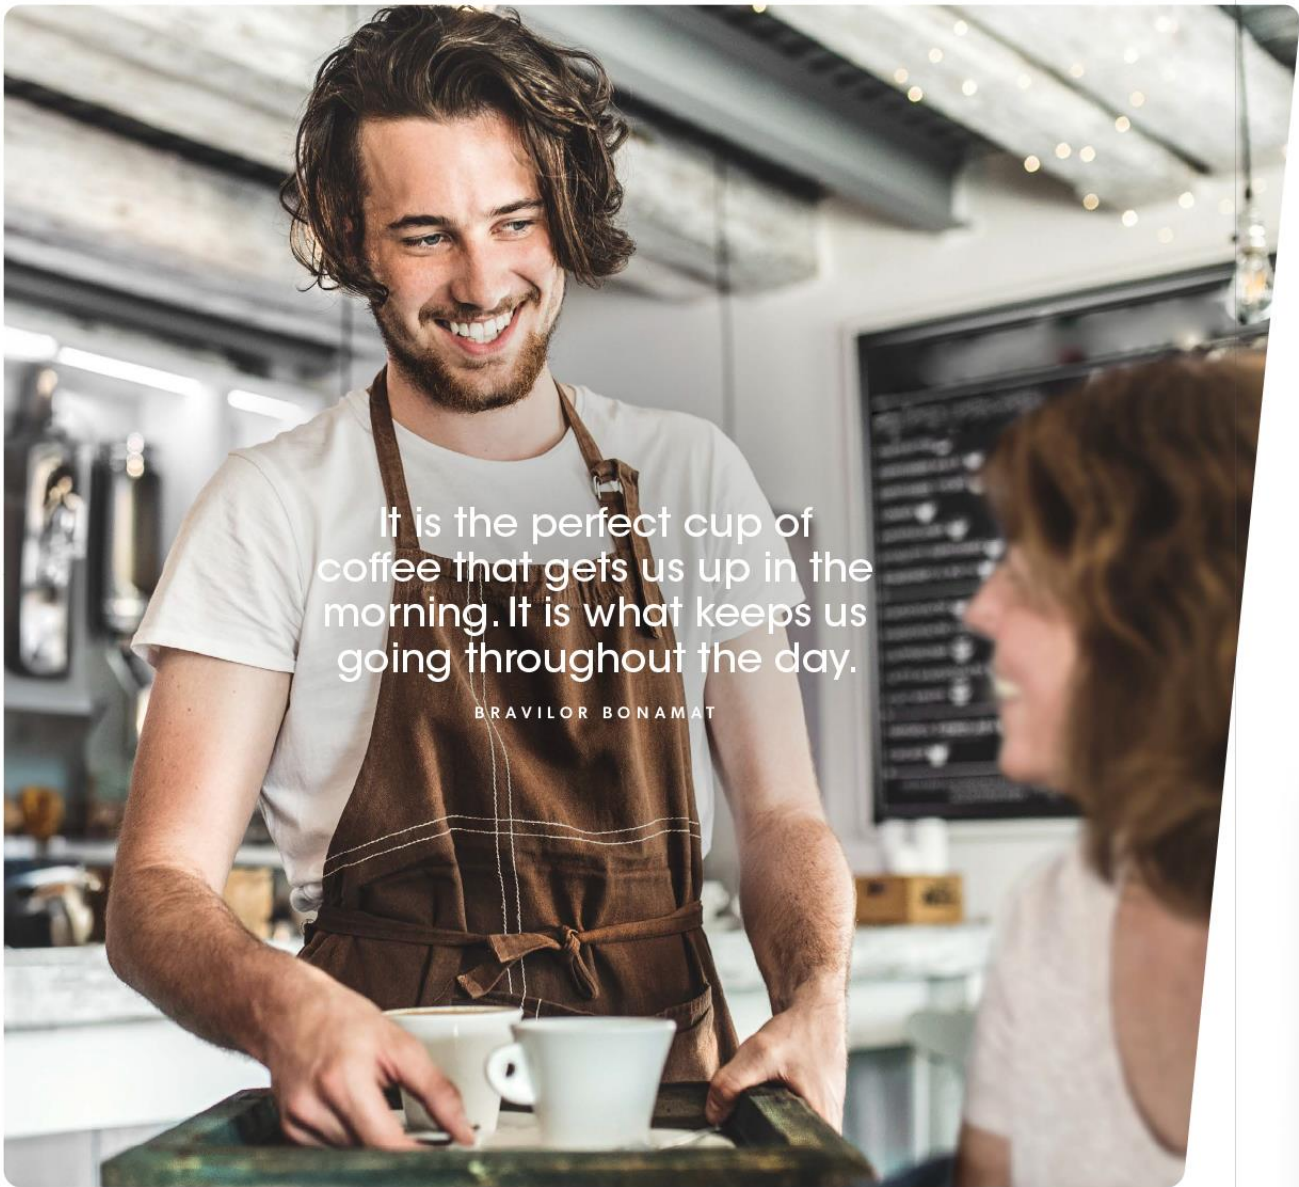

The Espresso is fitted with the all new Bravilor Bonamat grinder. This patented grinder is extremely silent and fast with low heat input. The blasted grinder discs ensure a constant grind output. While the renewed grinder outlet allows for an improved flow of coffee ground into the brew chamber.

Horizontal Brewer

The unique Bravilor Bonamat horizontal brewer is renowned for its authentic espresso extraction. Making sure every cup of coffee offers your customer the best experience with aroma and taste of the highest quality. It is perfected to optimize coffee ground distribution in the brew chamber to get the most out of your bean.

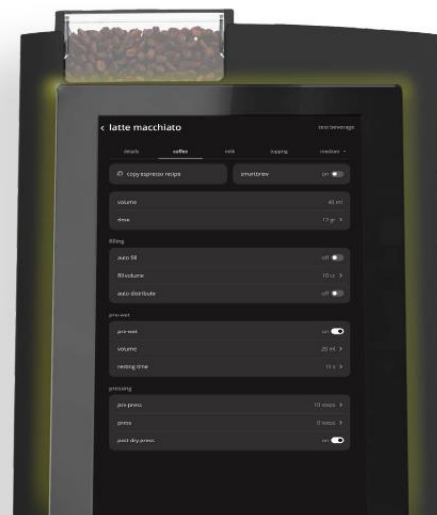

It is the perfect cup of coffee that gets us up in the morning. It is what keeps us going throughout the day.

BRAVILOR BONAMAT

SMARTBREW

Anyone can be a barista

There is no need to have extensive knowledge on beans and grinds. Simply set your preferred volume, coffee dose and extraction time, and the Esprecious does the magic for you and finds the sweet spot. And to maintain the coffee quality, the Esprecious analyzes your SmartBrew beverages in SmartBrew status. In expert mode, there are no limitations to your creativity. Unleash its full potential and create unique recipes and flavors that reflect your business.

SMARTBARISTA

Optimize your coffee

Need subtle tweaks to your beverage. But you don't know exactly where to start. Give feedback to your Esprecious using SmartBarista and it will tweak it for you, helping you create your perfect cup of coffee.

ESPRECIOUS FRESHMILK

Milk foam as light as air

Offer your customers the perfect cappuccino or latte macchiato by choosing an Esprecious L with FreshMilk. The whipping process of fresh cold milk, steam and air creates milk foam of superb quality.

Hygiene

The automatic rinsing programme of the FreshMilk ensures that the tubes and frother are cleaned frequently.

7 litre container

The FreshMilk holds 6 one-litre cartons of milk. When demand is high you can opt for the milk container with a capacity of 7 litres.

ESPRECIOUS Accessories

Extension set

Increase the capacity of your Esprecious with 1kg using this extension set. Available as single bean canister or divided bean canister.

WHK

Preheat your cups and mugs with the WHK unit. This compact unit holds approximately 120 cups divided over 3 layers.

Waste chute

Extend the coffee residue capacity of your Esprecious by placing this waste chute in the machine.

MDB service set

Extension to enable payment or connectivity solutions to your Esprecious.

Cabinet

Place your Esprecious as a stand-alone unit using this cabinet with space for additional capacity.
